REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art of record fails to disclose the claimed invention. Specifically, the closest prior art of record, U.S. Patent 6,709,029, fails to disclose liquid barriers attached both to the absorbent product and to the side flaps, wherein the attachment of the liquid barriers to the side flaps is located between the attachment to the absorbent product and the free edge of the liquid barriers. Nothing in the prior art of record anticipates or fairly suggests the claimed invention.

Claim 1 is generic to certain embodiments of the instant invention, and is allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claims 4, 6, 7, and 12-15, directed to the species of figures 3, 5, 7, 9, 11, and 14, are no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim. However, claims 3, 19, and 20, directed to the species of figures 4, 6, 8, 10, 12, and 13 are cancelled.

In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
